

Gifted and Talented Education

A Short Guide to the Seminar Program

Program Description and Resources

GATE SEMINAR:

Students who meet the multi-criterion standards are identified as a GATE Seminar student. This includes a score in the ability range greater or equal to three standard deviations above the mean, high academic achievement, and characteristics of Gifted students.

Seminar students can be atypical learners who may require programs significantly differentiated from the more typical GATE Cluster programs. These classes support students in developing their exceptional potential. The Seminar program is intended to serve varied students who need extraordinarily high-level, advanced and challenging curricular activities; those with extremely high tested ability but low school achievement; or those students who are divergent thinkers and “march to a different drummer.”

SEMINAR Classrooms 3-10:

A minimum 50% of each class is comprised of students identified as GATE Seminar; the remaining students in the class are identified as GATE Cluster.

Seminar Programs must:

- Offer curriculum that meets or exceeds the Common Core State Standards;
- Differentiate instruction to include acceleration, depth, complexity, and novelty as appropriate;
- Enrich curriculum and instruction through the use of community and technology based resources; and
- Develop students’ interpersonal, organizational, and leadership skills.
